Built for business.

Adobe Creative Cloud for teams includes several of the most widely used digital creative tools – such as Adobe Photoshop, Adobe InDesign, Adobe Illustrator and Adobe Premiere Pro. Users also get access to thousands of Adobe fonts and millions of free or paid Adobe Stock assets. Collaborating and sharing projects is easy, making for a more streamlined workflow.

A winning team.

Adobe commissioned Forrester to examine the potential return on investment (ROI) small and mid-sized businesses may achieve by using Creative Cloud for teams. The results, outlined in *The Total Economic Impact™ of Adobe Creative Cloud for teams for SMBs*, showed that creative efforts in the businesses were boosted, and productivity was accelerated with creatives able to turn high-quality work around faster.

Saving time means saving money.

The report found that over three years, a small or mid-sized business would save £314.1K on 'creative project productivity', £109.8K on 'administration efficiencies' and £37.8K on 'management efficiencies'. This was calculated based on the number of hours saved using Creative Cloud apps instead of other software.

The results are in.

The report concluded that by using Creative Cloud for teams, "businesses can streamline their work environment, better predict licensing costs and empower teams to connect and collaborate."
